

NATURE SCAVENGER HUNT

Join the Academy of Natural Sciences for the City Nature Challenge, April 30 to May 3.

JOIN US FOR THE CITY NATURE CHALLENGE

The City Nature Challenge is a friendly competition where people from more than 300 cities compete to see who can record the most wildlife. You can join us by documenting the plants and animals you find. Ask a grown-up to help you upload your observations to iNaturalist.

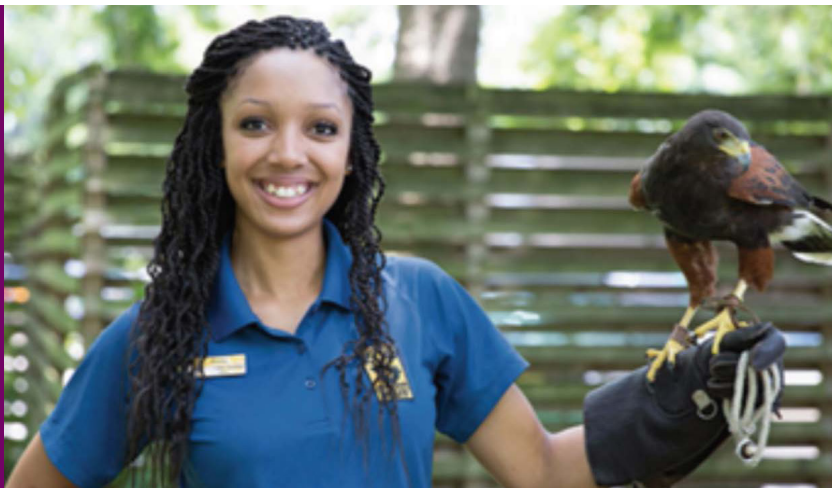

Inspired by naturalist Corina Newsome, let's go on a nature scavenger hunt together! First, ask a grown-up if you can explore your backyard or a local park. Depending on where your journey takes you, you might find some very interesting things! Mark off the wildlife you find below.
